

RECRUITMENT FOR THE POST OF DIRECTOR-GENERAL International Iberian Nanotechnology Laboratory (INL)

The Council of INL is seeking an experienced, inspirational and dynamic leader to serve as INL's next Director-General.

INL is the first and only Intergovernmental Organisation (IGO) in the world entirely focused on Nanoscience and Nanotechnology, created with the aim to become a global centre of excellence in applied nanotechnology research and to attract some of the world's best scientists and engineers. INL was established by a joint decision of the Governments of Portugal and Spain and has been operating since late 2010, following a total investment of 100 M€.

The Director-General, with proven experience of research, innovation and co-creation of knowledge with industry, shall be responsible for the overall leadership, strategic direction and management of the multidisciplinary and international community of INL. Moreover, the Director-General is the spokesperson for INL and serves as an advocate and communicator with all stakeholders and interested parties including worldwide scientific community, policy makers, industry groups, funding organisations, the media and the general public.
